

## ELEMENTARY MENTAL MATH CHALLENGE

Our second *Mental Math Challenge* for second semester was held Thursday, March 2, 2017. Prior to this challenge each class held competitions to determine a class winner. The winner from each class competed with the other class winners from their grade in a *Mental Math Challenge*. As a result of the challenge, a *Mental Math Champion* was determined for each grade. The next *Mental Math Challenge* will be Thursday, March 30.

Congratulations to all these students!
